
simple question

Posted by SlimJim - 2008/01/03 18:59

i don't even know if the question belongs in this area but anyway how do you add signatures to your profile eg at the bottom COD4 owner?

At the top of the Forum click on My Profile, then click on My Profile Info

Then near the bottom there is a very small space to put in your Auto Signature, if you need any help i will help you out/do it for you, if you ask me nice i may do you a moving image signature like i did for Eddie & kaTana :P

Could you also please update your email using My Details in the right hand column on the Home page, as i had to make one up for your account...

ta

ORCA
